"I have the utmost pleasure working with Jimmy for over two years here at DMWF (Digital Marketing World Forum) – in-person and virtually. A delightful and charismatic speaker with an abundance of marketing knowledge. His sessions are not only delivered in an easily digestible fashion, so the audience is not overwhelmed, his personality is an infection on the stage! Jimmy is always on hand to lend his support and expertise to enhance our delegates' experience at our conferences. We love working with Jimmy and having him speak at DMWF events for years to come."

CARLOS RODRIGUEZ

Vice President, Digital Products & Revenue at RX, Reed Exhibitions US

"Obviously, the two major traits found in great speakers are: 1) are they knowledgeable in their chosen subject and 2) are they engaging when they speak. Let's start with number one. For my digital marketing event, madconNYC, we needed not only great speakers but experts in a given digital marketing discipline to provide advice and answer the burning questions of our participants. Jimmy is so knowledgeable that not only can he speak intelligently on NUMEROUS marketing topics, but he really is a true "expert" in different disciplines. His advice is proving to be invaluable to our event customers. Now let's look at number two. Jimmy's delivery, demeanor, and dynamic personality ensure he can a) make the connection with our audience and b) hold their attention. I know many people who have number one OR number two, but not many that embody both. Jimmy does. And I say this from personal experience, having worked directly with him. He's so good we asked him to be both an Expert AND a thoughtleadership speaker! In short, Jimmy is both the bee's knees AND the cat's pajamas!"

ANDREW FRAZIER

Founder, Small Business Pro University

"Jimmy is an absolute expert when it comes to developing and implementing digital marketing strategies for producing increased profitability within your business. He is a powerful speaker who is not only motivational but effectively communicates complex information in an easy-to-understand way.
